Art Unit: 1745

Claims 19-25 are allowed. The Terminal Disclaimer of 28 March 2006 has removed the previous rejection under Obviousness-Type Double Patenting.

The disclosure is objected to because of the following informalities: As noted of record, the objects referred to on page 9 should be called "electrodes", rather than terminals.

Appropriate correction is required.

Applicant's arguments filed 28 March 2006 have been fully considered but they are not persuasive.

Applicant argues that on pages 9 and 10, the specification describes the terms positive and negative terminals in detail, sufficient to enable these terms to be understood by one skilled in the art. This is not persuasive because the objection is made not because of an insufficiency in detail in describing the "terminals", but that the term "terminal" is itself incorrect. Applicant is directed to the corresponding sections of his earlier patents. In Patent No. 6,387,562, column 4, starting on line 64, reads, "The negative electrode 11 includes a current collector 11a, on each side of which is formed a layer of active material 11b." (emphasis by underline added, bold and italics in original). Patent No. 6,706,080, in column 4, lines 59-61, uses the same language, with the word "electrode".

This application is in condition for allowance except for the following formal matters:

The incorrect language in the specification, as noted above.

Application/Control Number: 10/780,532 Page 3

Art Unit: 1745

Prosecution on the merits is closed in accordance with the practice under Ex parte Ouayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Kalafut whose telephone number is 571-272-1286. The examiner can normally be reached on Mon-Fri 8:00 am-4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick J. Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
